

What People Are Saying

“Very comprehensive – well thought out; solid biblically, overall well-done.” (John Jenkins, author of five novels, regular contributor to Focus on the Family magazine publications.)

“Enhancing Your Marriage: A Woman’s Bible Study has changed our marriage. My wife has enjoyed understanding the biblical truths from the study that apply to her role as a wife. I have to admit that my wife is a different person today because of the way God used this study in her life.” (Dan Britton, Senior Vice President, Fellowship of Christian Athletes)

“I deal with men and women of influence who struggle with the strain public service places on their marriages. There are many marriage resources available today, but few have had the impact I have experienced from using Judy Rossi’s material. It gets right to the heart of the issue of marital problems today--lack of understanding of God’s plan for marriages, and how our relationship with our spouse depends entirely upon our relationship with God. While these ideas are not new, Judy Rossi’s presentation of the material is unique (in my experience) and extraordinarily effective.” (George Selden, former Director, Christian Embassy, Campus Crusade for Christ)

“This is the best study I’ve ever taken—most life changing. God is using this study in a powerful way. And at what better time!”

“WOW! That one word almost sums up how I feel about this study! I have the privilege of facilitating a care group and we’re doing EYM. I was so excited about it that it was all I could do to wait for the first week of our meeting together. Why? Because I could see in advance how chock full of scripture and ‘God truth’ each page was. I could see how exciting and challenging this study would be for each woman involved.”

“Coming from an almost broken marriage that is even now still on the mend, I was hungry for knowledge. Your course has helped me tremendously.”

“I wish this was available to all women, especially before getting married. My marriage would have been very different the last ten years...”

“What an impact this study has had on my life! I thoroughly enjoyed every lesson and looked forward to the next one. I like the fact that the study focused on me and my role as a wife. It helped me to revisit what’s really important in my marriage.”

“God bless Judy for writing this study! It has truly blessed me in my growth in the Lord and in my marriage.”

“You would have to be dead not to be blessed by this study.”

“I have been in some other marriage-focused studies before and this one, by far, has been the most beneficial. I credit what God has shown me through this specific study as being what has actually saved my marriage. I have recommended it to all of my friends. It does what only the best studies can do—point you to the Word. I have found encouragement, challenge, reassurance, hope, conviction, practical advice and a deeper understanding of the scriptures covered.

“When I go back and think about ‘mile markers’ of our marriage, your study is number two in importance—right behind moving away from our families!”

“I can’t say enough about this study and what it has done for my marriage. If you want to do an infomercial, I’m your girl!”

“This study has helped me change some of my dysfunctional and unconstructive ideas about my marriage, some of which I have held on to for the full 20 years of my marriage. Judy has shown me how to have a ‘Christian’ marriage to a nonchristian. It has been a pretty powerful study for me!”

“Enhancing Your Marriage is the most straight forward, biblically based marriage study I’ve run across. I would recommend it to any woman whether engaged, newlywed, or oldie-wed. I hope there’s a sequel for men!”

“I never really thought about what God had to say about marriage before this study. It has given me most of the answers I needed to questions I didn’t know I had.”

*“I have read many books by prominent Christian counselors/authors, and as a couple we have attended various high profile marriage seminars through the years. This course, however, **has had the most profound impact on my understanding of my role as a godly wife.**”*

“In Lesson 1, I learned a principle that I was unaware of before...that I was created to be a help meet and responder to my husband. This brought about a total attitude change in me when I read what God expected of me. I began to take my eyes off myself and put them on the Lord. My prayers are now to change me, so that I can become a loving responder...”

“I think Lessons Three and Four were the best presentation of this type of material that I have ever seen (and I read a lot of books)”.

“All of the lessons have proven valuable as they follow a pattern of instruction that does not overwhelm the study participant(s). Each lesson leads into the next and provides for better understanding of the lessons to follow...It is because of the ‘straight to the point’ teaching that this study continues to draw large numbers of participants.”

“...there was no way you could complete this study and not experience some degree of positive change in your life ...and we did witness some dramatic changes!”

“The leave, cleave and become one flesh was an eye opener (in Lesson 5). I realized I had not left my marriage with my late husband and properly cleft to my husband now. Thank God for opening my eyes and forgiving me. Just that changed me...”

“I picked up the study to start Lesson 9. Part One is entitled ‘It’s About Me, Right?’ I just chuckle at how every time I open this study it always meets me where I am.”

“The fact that God has given us sex as a gift had eluded me. That I can enjoy sex and that God wants us to enjoy our spouse is very freeing and my husband sends thanks too.”

“I remember thinking ‘well, I really don’t need a marriage class’, but about the second lesson, I realized just how much I needed this marriage class.”

“My husband doesn’t walk with the Lord, so this lesson (7) was SO encouraging. Especially comforting is that my submission, even to an unbelieving husband, and my submission to the will of God allows GOD to work mightily in my husband and in my life. This study is so much about GOD and ME – OUR relationship – which then spills over into my marriage relationship.”
